

HilRod Group

Strategic Financial Solutions from Concept to Reality™

HilRod Group brings financial leadership to organizations of all sizes. We provide financial consulting and products for large-and mid-sized companies, and we provide strategy, analysis, and problem solving for entrepreneurs and small businesses.

Entrepreneur and Small Business Solutions

One of the many challenges facing business owners and entrepreneurs is the need to obtain and then analyze accurate financial information. Most small businesses do not have accounting and finance expertise in house--and that's where HilRod Group can help.

HilRod offers a suite of services to small businesses and emerging growth companies:

Company checkups to assess the overall "health" of your business and to identify areas of strength and weakness.

Accounting system setup to ensure that you are capturing and analyzing the best financial information.

Performance improvement to help you increase cash flow, decrease costs, and maximize profits.

Strategic planning for developing business plans, raising capital, and succession planning.

Corporate Solutions and Products

HilRod Group has the finance, accounting, and strategic expertise to help your company or division exceed its financial goals.

In the corporate world, finance groups and divisional managers have tremendous demands on their time and energy. HilRod Group understands these demands, and also understands the critical need for corporations to have:

Thorough and accurate financial reports
Fast access to important data for critical decisions
Experienced and trusted strategic planning and advice on organizational and operations issues

About HilRod Group

HilRod Group was founded by finance and accounting professionals with a vision to help companies succeed and grow. Our goal is to provide financial leadership that brings clarity and a focus on solid financial performance.
